

MUHAMMAD FLAIFEL

FULL-STACK DEVELOPER

[GITHUB](#)[Portfolio](#)[LinkedIn](#)

PROFILE

ASP.NET Full-Stack Developer passionate about delivering high-quality, scalable solutions. Excels under pressure, efficiently manages multiple tasks, and fosters strong team collaboration.

Demonstrates exceptional time management, attention to detail, and a fast-learning mindset for continuous professional growth.

EDUCATION

Al-Balqa Applied University

Bachelor's Degree in Computer Science

[Sep 2019 – Sep 2022]

Achieved a Very Good grade.

Programming Skills

Front-End

- Java Script
- React.js
- Bootstrap
- Tailwind

Back-End

- .NET Core
- RESTful API

Database

- SQL

Certificates

- Object-Oriented Programming (**OOP**)
- Database Fundamentals
- Data Structures and Algorithms
- React

Skills

- Algorithms & Data Structure
- Git- GitHub
- OOP programming
- Teamwork
- AI tools
- Management skills
- Efficient, Organized, Motivated
- Fast learning

EXPERIENCE

.NET and Full-Stack Web Development Intern

[March 2024 – November 2024]

Abdul Aziz Al Ghurair School of Advanced Computing (ASAC)

- Developed full-stack applications using .NET (ASP.NET Core, Web API) and front-end frameworks to build scalable, secure, and user-friendly solutions.
- Designed and implemented RESTful APIs, ensuring seamless integration between back-end services and front-end applications.
- Optimized database performance and queries for SQL Server, enhancing overall application efficiency.

Desktop Application Development Intern

[November 2022 - February 2024]

Programming Advices School

- Developed desktop applications using C#, Windows Forms, and ADO.NET
- Designed and managed relational databases with SQL Server, and optimizing database queries.
- Integrated ADO.NET for seamless communication between applications and databases.
- Built user-friendly and efficient desktop interfaces tailored to client requirements.

Projects :

Project 1: Knowledge Key Center

- **Technologies:** C#, ASP.NET Core, Entity Framework Core, SQL Server, JWT Authentication, Swagger ,React.js.
- **Key Features:**
- Implemented **ASP.NET Identity** with role-based access control and custom validation for secure user authentication.
- Developed efficient CRUD operations for managing teachers, students, and courses, **handling over 10,000 records** with minimal latency.
- **Built a responsive and interactive front-end using React.js**, ensuring seamless integration with ASP.NET Core back-end APIs.
- Ensured data integrity and robust error handling.
- **Achieved 100% data integrity** through effective validation techniques and error handling across both front-end and back-end systems.

Project 2: Dern Support Project

- **Technologies:** ASP.NET Core, React.js, Entity Framework Core, SQL Server, RESTful APIs, JWT Authentication.
- **Key Features:**
- Developed a full-stack support ticketing system to **streamline customer issue resolution** and improve response times.
- Built a **RESTful API** using ASP.NET Core to handle ticket.
- Designed an intuitive and responsive front-end using **React.js**.
- **Implemented JWT-based authentication** to secure the application.
- **Integrated Entity Framework Core with SQL Server** for efficient data storage, **handling +10000 of support tickets** with minimal latency.
- Ensured robust error handling and validation across both front-end and back-end systems, maintaining **100% data integrity**.
